

Placing NM PETCT orders in EPIC

- The Thomas Center will have an in-house PETCT scanner on Jan. 25, 2021.
- We will still have the Alliance Van performing scans at GS, WR, MH and BTLR.
- While we prefer that all patients go to TC, we want to continue to provide the patients and physicians with the continued services at the other sites.
- **All NM PET CT orders are to be place electronically in EPIC starting Jan. 25th, 2021** and Central Scheduling will now be scheduling these orders.

Ordering your order

1. In order entry, search PETCT.
2. Select the IMG#### order that you want.
3. Complete any required information in the order composer.
4. Accept.
5. Sign your order (complete diagnosis association if needed).

Order will go to Central Scheduling for scheduling.

If you have questions, call the Help Desk and ask for the Procedural Team on call.
