

Living Our Values Award Winners - FY22 Q1

Region	First Name	Last Name	Business Unit	Nomination
BN	Terence	Logsdon	NRTH RESPIRATORY SERVICE	Arrow Springs had an over the road truck driver, from Utah, who became ill, and was admitted to BN. The patient travels with his dog and he was very concerned about the well-being of the dog... Terry volunteered to take the dog home until the patient's wife traveled across country to be with her husband and pick the dog up. The patient had so much gratitude and the staff raved about this act of kindness. Thank you, thank you for living our values. Maria Ashdown, MSN, RN, NE-BC
GSH	Jerry	Heatherly	GSWR TOI OCM	Jerry is the chaplain for cancer services, and this is the role that God intended for him. He travels to the patient; inpatient, Jewish bone marrow unit, hospice care, and in their homes. He brings his guitar to the infusion centers to provide patients with the ministry of music. He has performed many funeral services at the request of patients and families. He regularly counsels team members, individuals and groups, through life events.
Shared Svcs	Sara	Doolin	Bethesda	This team member worked 26 hours straight trying to fix and correct a major computer problem for our hospital. She did this without complaint and with a willingness to get the situation as corrected for us as she could before she could pass the baton off to a team member. I was the last person she interacted with when she left, asking me to give her last update for the am huddle.
Ambulatory	Sheila	Sullivan	Bethesda North	Sheila has such a positive attitude and is always looking out for her patients and everyone who works at the infusion center at Kenwood. She greets her patients with a smile, remembers details about their care and concerns of the patient. She brightens the lives of so many patients and coworkers with the garden she created outside of the infusion center windows and continues to maintain.
HOC	Sara	Hellmann	HOC INTEGR HLTH & MED	Earlier this week, Sarah celebrated a patient's birthday by getting balloons. Sarah engaged the janitorial team in celebrating because they have become close to the patient. The patient cried because no one had remembered his birthday. Sarah also made for each of our five IS team paintings. She had hidden their names in each of the paintings. she wrote a nice message that though they are behind the scenes, they are much appreciated and integral to the HOC mission. so thoughtful!

Living Our Values Award Winners - FY22 Q1

TPP	Tammy	Wells	RESPIRATORY SPEC	I had a phone call in the morning from the wife of a patient requesting I call back soon. Normally this just goes into my message que and I reply in the afternoon. Just from the tone of the wife, Tammy realized this was important to her- so she immediately walked up to me to tell me her concern that something was terribly wrong. So, I called back in 10 minutes, instead of 4 hours, and found he was suicidal. We intervened- but Tammy may have saved his life with her quick action.
Pavilion/Corp Health	Leslee	Worley	BHCR OCC MED CTR-BUTLER COUNTY	No matter what is going on Leslee goes above and beyond in helping her coworkers. She could be swamped with patients, but if a fellow coworker calls, she takes the time to help them. She is so caring, kind and considerate. She always knows just what to say to cheer up a fellow coworker.
MHMH	Maria	Kreitzer	MHMH LABOR AND DELIVERY	Maria came to the hospital on a Friday night and stayed with a patient the entire night to support the patient and the Labor and Delivery staff in a difficult situation. The patient was discovered to have a full-term stillbirth. This is not only tragic for the patient and her family but is a difficult situation for all involved. Maria did not have to do this, and she did it on her own time, sacrificing her own sleep and time at home with her family. This was greatly appreciated by all.
Evendale	Kathleen	Tashjian	GSEMC PACU	Kathy Tashjian, RN, on a weekly basis soon after COVID began, has clearly demonstrated our SERVE values. She writes beautiful inspirational messages along with Bible quotes weekly to buoy the spirits of all employees who are lucky to read them, on the white board in our ice room in the PACU. She takes the time to do these heartfelt messages after she clocks out! Her kindness, love, and compassion for all people is poignantly displayed. She is an Angel on earth and deserves recognition!
Butler	Nancy	White	BTLR ENVIR SVCS	When I think of Living Our Values, the one person who stands out to me more than anyone is Nancy! She is one of the hardest workers I have ever met. Nancy takes great pride in her work, and it shows with how she presents herself. She always takes the time to interact with our patients and wish them well, while she does an amazing job keeping our ER safe and clean! Nancy lives out our TriHealth values every day and is so deserving to be recognized of the phenomenal job she does!
