

Dr. Rochelle Buckley

Area of Practice

Psychiatrist in TriHealth's Women's Mental Wellness Practice

Education and Experience

Spelman College - B.S.

Meharry Medical College - M.D.

I have worked in a variety of settings providing mental health care services

Where does your passion stem from for the work that you are leading?

I have been with TriHealth for 4 years now, but over the last several years I've had an increased interest in exclusively working with women in need of mental health services. I am currently focusing on women seeking improved mental wellness and who are dealing with fertility issues; women who are pregnant, and who are up to one year postpartum. Our practice is currently providing a holistic approach in treating the mental wellness needs of these patients. I am hopeful that in the near future, we can expand our services to all women with OBGYN providers within the TriHealth Physician Practices.
