

Gayle Mattson

Area of Practice

President & CEO, Hospice of Cincinnati/HOC Navigators

Education and Experience

Executive MHA – University of Minnesota

BS in Nursing – St. Olaf College

I have nearly 4 decades of clinical and leadership experience in hospital, ambulatory, home, and community-based, and post-acute care.

When did you know you were ready to step into a leadership position?

What called me to leadership was a passion to better serve patients, families, team members and physicians by making healthcare improvements at a systems level. What drew me to my current position is the opportunity to work with the amazing team at HOC Navigators and the desire to support and continue to advance the deep work of hospice, palliative care, and grief services provided to members of our community at some of their most vulnerable times.
