BN	Jeana	Dean	Jeana is the heart and soul of our team. She is so full of knowledge and helps not only our staff but outside vendors, departments, and anyone else who needs it. She is efficient in her work and even if she ever doesn't know the answer, she will work tirelessly to help find a solution to anyone's problems. She is long past due receiving the recognition she deserves and that is why I am nominating her for this award.
GSH	Lisa	Sierra	<p>Lisa recently provided care for a young female that was brutally assaulted. Lisa relied on not only her training as a forensic nurse and CARES team member, but also as an experienced critical care provider. Lisa knew this person did not have a safety plan on discharge and sought the associated police jurisdiction for assistance. She did not get the help she needed from that jurisdiction, but as Lisa is not one to be deterred when best serving our patients, she pressed the issue with another jurisdiction. That officer responded, and realized this assailant had two outstanding warrants, previous convictions. Lisa, the Hamilton County prosecutor's office, and Green Township PD were able to collaborate and arraign the individual the next day. Lisa testified the next day and help secure a 2 million cash bond to keep this assailant behind bars, possibly facing a 25-year conviction. Lisa is a value to our patients, and an incredible mentor to our less experienced staff. Thank you</p> <p>We see many unfortunate circumstances in the Emergency Department. This requires team members to be trained on how to identify potential victims and how to handle their care, including reporting to authorities. Recently Western Ridge ED nurse, Lisa Sierra, cared for a young lady who had been brutalized over several days and repeatedly strangled until unconscious. Lisa spent time with the victim and was able to get her to open up about the events that led up to her presentation to the ED. Lisa collaborated with local police authorities to have the offender, who was on bond for the same offense with multiple victims, detained and new bond set at two million in cash. I witnessed her bravery and selflessness as she stood up for a vulnerable girl who was victimized by a monster who was a repeat offender. Lisa put her fears and personal safety aside, appeared in court on her off day and helped serve justice to a man who had no business being free. She was somebodies' hero that day.</p>
Shared Svcs	Deshawn	Thomas	Deshawn you did an outstanding job today, 05/01/2023 locating the mother of two missing children located in our employee garage! Deshawn, I am beyond words at how you interacted with these children. You went above, and beyond to make sure that they felt comfort and safety by purchasing them food and beverages and placing a smile on their face. Corbin, did an outstanding job identifying and locating the mother, using team member resources and thinking on your feet!

HOC	Cathy	Bell	Cathy is outstanding at Western Hills Retirement Village. Even though Hospice of Southwest has part ownership there, they don't have pts. A HOSW nurse that Cathy knows told Cathy the other day that the Marketers from Southwest came there, saw her and were asking her how to get patients there. They said HOC has it locked up . She said I told them there is nothing they can do because there isn't a single nurse at Southwest who can touch Cathy Bell. She knows her stuff. Cathy truly does!
TPP	Yareimian	Nunez Collazo	I had a 4-year-old patient whose mother speaks/reads Ixil, but who can communicate in Spanish. It was clear he had multiple developmental delays as well as desperate need for dental and ophthalmologic evaluations and I had referred him to multiple specialists and therapists at Children's to address these. However, because of her difficulty reading Spanish and lack of availability of Ixil interpreters, Mom's attempts to schedule had gone no where. Yarei-a bilingual, front desk specialist (so not a scheduler or paid interpreter)-scheduled an appointment for herself with Mom and spent over an hour personally calling ALL of the necessary departments at Children's to set up appointments for this patient so he can get the care he needs. We are so blessed to have team members that care enough to go above and beyond to help our smallest patients in this way.
Pavilion/Corp Health	Mary	Lowe	I have worked with Mary Lowe for many years. She is always professional in everything she does and who she interacts with. Recently we have been short staffed on our department. Mary consistently offers to work extra hours; days, even when she was supposed to be on vacation she has offered to help. She goes out of her way to help clients , team members, and our affiliates. Mary keeps our system running smoothly!
			Mary has been a tireless worker and dedicated and conscientious team member. She is knowledgeable about every area of her job and has always been accessible and willing to help when one of us has question or immediate need. In working with the EAP Program, she has been a real client advocate, often going above and beyond to make sure that the client's needs are met and they're connected with appropriate counseling. She exemplifies the TriHealth way in everything she does.
			If there is a person who exemplifies TriHealth's SERVE values, it is Mary Lowe. Mary has gone above and beyond the last several months as the team has been short-staffed. She comes early, stays late, and makes sure to respond to client requests and questions promptly. She truly understands our clients call in moments of crisis and makes every effort to make sure they feel supported. She cares SO MUCH about the work, and I've learned a great deal from her over the last year plus. Thank you Mary!!
			Mary consistently models Serving and Excelling by the way she treats callers who are requesting EAP counseling. Mary recognizes when people are in crisis and when they need to talk to a counselor immediately. She also identifies opportunities to get clients in quickly on our schedules, so that not only is our time used well, but the client is served quickly. Mary excels at keeping track of the many details in her work and communicates clearly with the team and clients alike.
			Mary is always responsive with TriHealth EAP questions and needs. She completes tasks quickly and follows up. She helps when asked, without hesitation. I want to thank Mary for her assistance, always.

MHMH	Garrett	Hoff	Garrett Hoff RN is a 2023 graduate nurse working on Inpatient Care Unit in the initial six months of his career. Garrett demonstrates excellence in the patient care. Garrett escalated his concern, recognizing clinical deterioration of a patient, resulting in immediate transfer to higher level of care leading to life-saving interventions. Garrett gives priority to patient safety, quality and excellence in his daily care of our patients and represents SERVE by Living Our Values.
Butler	Amy	Helmecamp	Amy truly excels every day not only as a very skilled nurse, but as a wonderful teammate and person. She brings a positive, calming energy to our department that is felt by coworkers and patients alike. She has never failed to step up when the moment calls for it, and always keeps her composure and compassion. Amy absolutely embodies humble excellence. I am proud to work with her and wish every patient could receive the quality of care she provides every single day.
